## Company Profile Medical Lighting

Medical Lighting Our goal is to satisfy the customer with products dedicated to health care facilities for the elderly and hospital, offering lighting solutions designed and certified to meet the

needs of patients and operators.

No longer just a search for functionality, performance and reliability, but an aptitude for modelling concepts with an immediately recognisable identity.

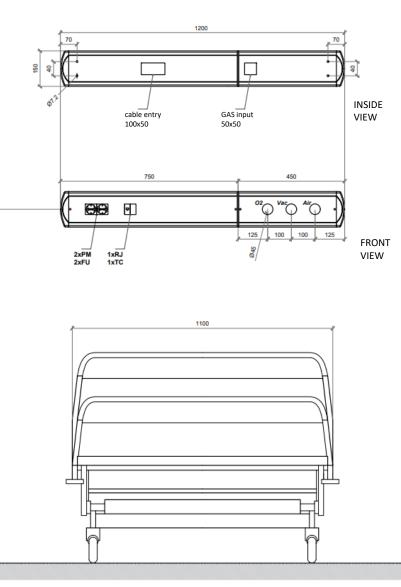

Projects that look to the future, with the use of innovative materials.

And above all, with a regenerated attention to aesthetic values, to unprecedented syntheses, to visionary contaminations. Krea Design S.r.l. adopts a Quality Management System conforming to the UNI CEI EN ISO 13485 standard and certified in 2019 by the Notified Body 0426 ITALCERT according to the procedure laid down in Annex II (with the exclusion of point 4) of Directive 93/42/EEC, D.Lgs. 46/97 and subsequent amendments and additions.
